HTC 800 RX

- HTC 800 RX - a remote controlled floor grinder

Maximize your efficiency – HTC 800 RX

The HTC 800 RX uses the same reliable technology as the larger [HTC 950 RX](#) and it is similarly equipped, with a battery and an extra wheel for transport. The HTC 800 RX, just like the HTC 950 RX, is a powerful and efficient machine. In addition, the machine's width of 860 mm means it can pass through all standard doors.

The remote control makes the machine very easy to use and it minimises the risks for work related injuries. Without interrupting the grinding, the operator can also handle telephone calls, the dust extractor and other surfaces on the premises, which doubles the capacity. Moreover, the HTC 800 RX is equipped with HTC's patented and well-known drive system, with 2-year warranty. Furthermore, it is equipped as standard with: MCS™, floating cover, integrated weight system, EZchange™ and it has a foldable handle that facilitates grinding in cramped spaces.

Product sheet

4 head grinder (X model)

With a 4 head grinder you get an up to 30% more effective grinding and stripping and obviously a more level floor.

Outstanding quality

HTC's high quality means that HTC as the only company in the industry can offer a 2 year warranty on the complete machine range. [Download data sheet](#)

Floating Grinding Cover

Together with the dust extractor it prevents dust to spread in the premises. Since HTC's grinding covers are flexible you can grind much closer to comers and edges.

MCS™ - Mist Cooler System

A small detail that makes a huge difference. Prevents the metal tools to overheat and significantly increase the machines stripping capacity. [Read more](#)

Remote control

The remote control provides a significantly simplified handling of the machine during grinding and transportation. It also makes it possible to grind for a long period of time without a break.
